INDEX

TO VOL. XVII,

ELECTRICAL REVIEW,

AUGUST 30, 1890, TO FEBRUARY 21, 1891.

A WEEKLY RECORD OF THE PROGRESS OF ELECTRICAL SCIENCE.

13 PARK ROW, NEW YORK.

ARTICLES MARKED * ARE ILLUSTRATED.

A

American Electrical Works' Twelfth Clam Bake, 1
Anvil Chorus, The, 20
Air as a Conductor of Electricity, 21
Alexander, Barney & Chapin, 32
Anti-Magnetic Watches, 35
American Institute of Electrical Engineers, 48
Advertising; Does it Pay? 49
Aluminium, 68
A. B. & C. Opening, 70
Alternating Current Voltmeters, Compensation of, by J. Swinburne, 78
A., B. & C's Open House, 81
Armstrong's Dining Room Push Button, 83
*Arc Lamp Post of The Western Electric Co., New, 97
A., B. & C., 100
*Austin's Hand Power Dynamo, 101
Army Electrical Corps, An, 116
Alternating Current Motor, Bradley's, 120
Alexander, Barney & Chapin, 124
Antediluvian Underwriters, 125
*Air Engine, A New, 127
Accidents, Electrical, 128
Atmospheric Electricity, 132
Albany, The Telephone Question at, 132
*Arc Lamp, The Brush-Adams, 136
American Society of Mechanical Engineers, 136
*Arc Lamp and Carbon Attachment, The Haseltine, 139
*American Electric Elevator, 145
Alternating Currents, The Properties of, by Prof. Elihu Thomson, before Boston Electric Club, 150
Annunciator Suit, 154
Argyropoulos, M., The Vibrations of a Platinum Wire kept Incandescent by an Interrupted Electric Current, 155
Anglo-American Storage Battery Co., of Illinois (Took The Business From Him), 163
At It Again, 164
*Artificial Light of The Future, by Prof. E. L. Nichols, before N. Y. Electric Club, 166
*Ammeter, A New, 172
Accumulators at Chelsea, England, 173
Alarm, A False, 181
*Amateur Electricians, For, 181
American Chemical Society, 185
Atoms in Electrical Discharges, Motions of, by Prof. John Trowbridge, 189
*Adams, Arthur W., Traveling Contact for Electric Railways, 191
*Alleghany City, Pa., The Electric Light Plant in, 195
*Arc Lamp, Giles', 199
American Insulated Wire, 214
*Arc Lamps, Improved Globe Holder for, 219
Austrian Electric Railway, An, 230
American Electrical Works (Acknowledging the Gift), 230
Adams Electric Railway Co., The, 236
Alternating Mains, High Pressure, 239
Another Step Forward, 241
Appeal, A Plaintive, 241
Another Fine Collection—Thanks, 252
*"Alternating Electric Arc Between a Ball and a Point, On The," By Prof. Edward L. Nichols, 256
And Still They Come—Thanks, 261
Albany Letter, Our, 263, 275, 287, 299, 311
Advertising, A True Statement About, 270
Austrian Government and Electric Lighting, The, 273
Atmosphere, Resistance of the, 276
*Ammeter (New Test Instruments), 284
American Projectile Co., 303
American Institute of Electrical Engineers, 307
Auburn City Railway Co., Auburn, N. Y., 314
American Electrical Works (An Electrical Housewarming), 314
Appeals, More, 317

B

Barrett, J. P., "Electrical Industries and the World's Fair," 2
Batteries, Thermal, 4
Book Reviews, 18, 56, 69, 87, 104, 116, 132, 152, 161, 191, 208, 214, 237, 248, 269, 274, 303, 308
Boston Letter, Our, 19, 41, 69, 81, 93, 105, 117, 141, 153, 165, 179, 191, 203, 215, 227, 239, 251, 263, 275, 287, 299
Byrnes and the Telegraph, 21.
"Broomstick Train," 25
Bayles, Dr. George, Paper on Electrical Endosmose, 30
Battery, A New Form of Gas, 42
Bells, Bridging, J. J. Carty, before Detroit Telephone Convention, 46
British Opinions, 48
*Break Arm, A Malleable Iron, 48
Batteries, Frankland's Researches on the Chemistry of Storage, 51
Brooklyn Institute Fire, 61
Boston Banquet, A, 61
*Barton, Stephen E., Several Statements Concerning Electric Fires Refuted, 74
Boy, A Good Word For The, 82
*Ball and Norton "Monarch" Magnetic Separator, by C. M. Ball, before American Institute of Mining Engineers, 82
*Battery, The Fibrous, by J. Hart Robertson, 86
Buffalo Road, A Very Successful, 87
Better Time Coming, A, 89
Baltimore, Electric Lighting In, 91
Brake, A New Emergency, 96
*Bell, An Improved, 100
Buffalo Convention, The, 104
Brooklyn Institute, 107, 153, 188, 237, 311
*Bradley's Alternating Current Motor, 120
Beer Call System, A District, 124
Bridging Bells, 128
*Brush-Adams Arc Lamp, The, 136
Barbour-Starkey, W. J. S., Secondary Cells, 143
Burton Electric Heater, Favorable Reports of The, 144
Bailey, Theo. P., Electric Railways, 156
*Battery Strip, Delaney Patent, 159
*Baltimore Electrical Exhibit In, 160
Brooklyn, Electric Roads for, 162
*Bell, Dr. Louis, On the Theory of Compound Winding for Constant Potential, 168
Boston, Electric Lighting In, 168
*Battery For Beginners, The E. S. Greeley & Co's, 181
Boston, The Trolley In, 184
*Belding Electric Motor Manufacturing Co., 188
Business, Big Electric, 191
Bell Fitting, Rule for Electric, by W. Perrin Maycock, 193
Bid, An Expensive, 197
*Battery Connection, A New, 204
Board of Electrical Control (N. Y.), 208
*Bain Insulator, The New, 208
*Berlin Iron Bridge Co's Roofs, 209
Bid Again, To, 210
Boston, Wires of, 211
*Berliner Gramophone, The, 213
*Bain Break Insulator, The, 218
Bids (Certainly Low Enough Now), 223
Baxter Motor Trial, 227, 237
*Bradley & Hubbard Mfg. Co's Combination Fixtures, 229
Bridgeport, Conn., Notes, 230
Berliner, Emile, The Improved Gramophone, 232
Brush, Again in Favor of, 240
*Bridge, The Frey Electrical Balance or Reversible, 241
*Berlin Iron Bridge Co's Work, 245
British Telephone Patents, The, 251
Buffalo Electrical Society, 253
Berlin Iron Bridge Co., New Work of The, 254
Bell Patent, The, 264
*Bradley's Phase Indicator, 269
*Balance, Frey Magneto Electric, 273
Board of Electrical Control, 275
Ball Engines to be Made in the East, 277
Bogy, The Tramp Operator, Old, 277
Brooklyn Lighting Contracts Awarded, 279
Brush Electric Co., 262
Bowler Has a High Forehead, Mr., 283
*Bain Electric Mfg. Co's Motors, 292
Berlin Iron Bridge Co., 292
Bragg, C. A., Electric Lighting in Philadelphia, 302

C

Clam Bake, American Electrical Works' Twelfth, 1
Central Station Companies, Manufacturing and, 1
Cape May Convention, N. E. L. A., 1
Cape May Convention, The, 4
Convention Notes, 5, 11, 15, 19
California Electrical Society, 15
Chicago Letter, Our, 19, 41, 69, 97, 117, 129, 141, 153, 165, 179, 191, 203, 239, 251, 263, 287
Contracts made by Mail or Telegraph, 21
Cleveland, O., Letter, 29
*Connecticut Motor Installation, 32
Corn Palace Electrical Exhibit, 32
Copper, 35
Corporate Organization, Ed. J. Hall, Jr., before Detroit Telephone Convention, 39
Contracts by Telegraph, 40
Central Office Apparatus, The Housing and Care of, W. Patterson, before Detroit Telephone Convention, 44
Carty, J. J., Bridging Bells, 46
Cylinders, More Strauss, 46
Copper Tubes, Deposited, 47
*Chubbuck Break Arm, 48
*Canet Quick-Firing Gun with Electrical Training Gear, 58
*Crocker-Wheeler Motor operating a Gatling Gun, 65
*"C. & C." Motor Operating Ventilating Fan, 70
Cables of The World, Ocean, 74
Cutter's New Lamp Guard, 78
Copper Upon Rubber, Effect of, 91
"Crystals, Liquid," 99
Crosby Dry Batteries, The, 100
Convention, The Buffalo, 104
Canadian Telegraph Decision, 107
Compasses, All Watches, 113
Civilian Electrician in Modern War, The, Address of Lieut. Bradley A. Fiske, U. S. N., before New York Electrical Society, 114
Cable, a New Atlantic, 117
Cross, Prof. Charles R., The Extent of the Excursion of the Electrodes of a Microphone Transmitter, 118
Cable System, An International, 125
Cable Again, The Pacific, 129
Central Lighting Station as an Investment, The, by B. E. Sunny before Chicago Electric Club, 133
*Cleat, Fletcher's Corner, 136
Cincinnati Telephone Case, That, Nov. 8, p. xiii
Conductivity of Solid and Fused Salts, 143
Crosby Batteries, An Exhibit of, 144
Copper Question, The, 146
Chadbourne, A. H., The Future of Electric Traction, 149
Cincinnati Letter, Our, 153
Conduits in Cincinnati, 159
Connecticut Electric Light Association, The, 169
*Cut-Out, New Ceiling, 172
Carty, Lecture by J. J., "Telephony," 180
*Conduit System, Harding's New, 185
Clark Electric Co., Awards to, 189
*Cutter & Wood's New Dynamo, 189
*Contact for Electric Railways, Traveling, 191
Crosby Batteries Win an Award, 193
Cane, The Electric, 199
Citizens' Electric Illuminating Co.'s Brooklyn Station, 199
Contractor, Big Judgment Against an Electric Light, 201
*Cable Cores, Testing the Centrality of, by Paul Le Goazion, 201
*Connection, A New Battery, 204
*Conduit Couplings, 206
Call Box Decision, 208
Coins, Electrically Welded, 214
Christmas Greeting, A, 215
Cylinders, Future Generations Must Watch The, 216
Copper, Tests of Tempered, 217
*Cutter's Improved Globe Holder for Arc Lamps, 219
"C. & C." Motors and Blowers, 221
*Cloth-Cutting Machine, Electric, 223
Chestnut with New Prickles, An Old, 225
Crocker, Prof. Francis B., "Electrical Units of the Present and Future," 228
Central Electric Co's New Offices, 231
Coin Sweating by Electricity, 238
*Coupling, The Erickson Insulating, 240
*Cutter's Automatic Lamp Supporting Pulley, 243
Cables, Explanation of a Fault Occurring in Submarine, 247
Condenser, Experiment with a, by Sir Wm. Thomson, 248
Cranks, 251
Cooper Union, Professor Spice at, 251
Cable Service, Prompt, 251
*Central Railroad Station, Jersey City, N. J., Electrical Conveniences at the, 252
Copper, Production of, 253
*Carbon Protector, The Robertson, 254
California, Electric Lighting in, 259
Conductivity Under Different Electrical Influences, Experiments on the Variation of, 261
City That Has The Columbus Fair, The, 264
Cowles' Electric Smelting and Aluminium Co., Suit Against, 281
Cincinnati Enterprise, A, 284
*Central Electric Co.'s New Ammeter, 284
Cross, Prof. Charles R., "A New Method of Study in Telephony," 288
Central Union Telephone Co., 288
*Crosby Steam Gage and Valve Co., 291
*Cut-Out, The "Spring-Clip," 292
*Crocker-Wheeler Electric Pumps, 295
Crocker-Wheeler Electric Motor Co., Annual Meeting of the, 297
Copper Gossip, 300
*Crookes, Prof. Wm., "Electricity in Transitu—From Plenum to Vacuum," 300
Cable Hand-Book, A, 307
*"C. & C." Motor Applied to a Hydraulic Pump, 307
*Crocker-Wheeler Constant Current Motors, 308
*Cope's Device For Laying Pilot Lines in Conduits, 309
Chadbourne, Hazelton & Co., An Important Railway Contract, 311
*Cables, Laying Electric, by C. H. Wilson, 313
*Circuit Breaker, Hunt's, 314
*Cut-Out, McCreary's Thermo, 314
*Carhart & Co.'s Specialties, 315

D.

"Dangers of Electricity, The," Prof. Henry M. Morton before Twelfth Convention N. E. L. A., 3
Dynamos, The Coupling and Control of, in Central Stations, 16, 34
Dynamo as a Motor, The, 23
Davidson, Geo. J., The Operation of the Double Cord Keyboard at Brooklyn, N. Y., 38
Delany Apparatus in Germany, 83
*Dynamo, Austin's Hand-Power, 101
*Dynamo, Water-Power, 108
*Dynamo, A New United States, 113
Du Bois, H. E. J. G., Magnetic Circuits, 115
*Drill, Sigourney Three-Spindle, 131
*Dynamo, Investigation of the Stanley Alternate Current Arc, by W. B. Tobey and G. H. Walbridge, before the Am. Inst. of E. E., 134
Discoveries of the Provincial Press, 159
*Delany Patent Battery Strip, 159
*Duplex Rotary Engine, The, 171
*Dynamos and Motors for Continuous Currents, Low Speed Multipolar, Frank A. Perret, 173
*Dynamo, A New Electroplating, 189
Dynamo, Progress of the Giant Ferranti, 197
Drills for Ship Building, Electric, 201
Dots and Dashes, Undulations and, 221
*Detroit Motor Co., 224
Detroit Notes, 227
Detroit Electrical Works, 236
*Demagnetize a Watch, To, 247
Daft Sues Electric Cos., 251
Deptford Mains, Rise of Potential Difference in the, 267
Diamond, Phosphorescence of the, 285
Dog Wags the Tail, The, 296

E

"Electrical Industries and the World's Fair," J. P. Barrett, before Twelfth Convention N. E. L. A., 2
*Experiment, A Curious Telephone, 15
Edison Illuminating Companies, The Association of, 17
Electricity, Counted By, 22
Execution, Electrical, 24
*Electric Light Car, P. R. R., 24
Electrolytic Theories, 27
*Electric Club, At The (New York), 28
Endosmose, Electrical, An Account of Some Experiments in, 30
Electricity By Tidal Power, 48
Electricity and Gas, 50
Edison Illuminating Companies, Association Meeting, 57
*Electrical Training Gear on Canet Quick-firing Gun, 58
Electric Street Railway, "T. J. M.," 59
Edison Light Tower at Portland, Ore., 65
Electric Club, New York, 65
Elmira Electric Railway, 66
Electrical Thieves, 68
Edison Electrolytic Meter, On The New Standard, A. E. Kennelly, 72
*Edison-Eickemeyer Street Railway Armature, 72
Electric Club, Dinner at the New York, 77
Electrolytic Production of Pure Iron, 80
Engineers' Congress, The, 86
*Englund's Center Curve Insulator, 86
Edison's Laboratory, Visit of the Iron and Steel Institute to, 87
Electric Club, Fort Wayne, 88.
Electric Lighting Company, A Prosperous, 89.
*Electric Light Plant, A Great, 90
Electric Traction Work, New, 92
Electric Light Cheaper Than Gas Light, 93
Electricity, Magneto-Optical Generation of, 95
*Eickemeyer, R., An Important Improvement In Electric Locomotives, 96
Electric Railways, Early, 96
Emergency Brake, A New, 96
Electrocution News, 100
Electric Lighting Many Times Superior to Gas, by Paul Hoho, before Société Belge D'Electriciens, 105
Electric Railway Work, New, 108
Electric Transmission, Water Power and, 109
Electricity in a Silver Mine, Oct. 25, p. xiii
Eickemeyer Street Car Motor, The, 113
Electric Lighting, History of, 113
"Electric Rock," 116

Electrodes of a Microphone Transmitter, The Extent of the Excursion of, by Prof. Charles R. Cross, 118
Electric Clubs, 84, 122, 125, 141, 160, 185, 206, 218, 245, 257, 269, 281, 293
Electric Light, Photographing Water Jets by, 125
Electrical Accidents, 128
Electric Lighting Rules of the N. E. Insurance Exchange, 130
Electricity for a Felon, 131
Edison Co. *vs.* Westinghouse Co. (To Get English Testimony), 132
*"Electrix" Snap Switch, 132
Electricity, Atmospheric, 132
Edison's New Fire-Proof Insulation, 132
Electricity, A New Application of, 135
Electrocution News, 135
Electricity, Mules *vs.*, 136
Edison Toy Manufacturing Co., 143
Erygmatoscope, The Trouve Electric, 142
Eiffel Tower, Pendulum on the, 143
Electricity in Street Cars, 144
*Elevator and Hoist, American Electric, 145
Electric Light in New Mexico, 145
Electric Traction, The Future of, by A. H. Chadbourne, 149
*Electrograph, Description of The, by Prof. C. D. Warner, 149
Equitable Engineering and Construction Co., 151
Electric Railways, by Theo. P. Bailey, before Chicago Electric Club, 156
*Electrical Exhibit in Baltimore, 160
Eddy Electric Mfg. Co's New York Office, 160
Electricity on Our Cruisers, 169
*Engine, The Duplex Rotary, 171
Electric Lighting Scheme, A Novel, 174
Electric Light Station at St. George, Staten Island, 175
Electric Lighting Bids for New York Still Too High, 187
Electrical Gathering, A Delightful, 190
Explorer, The Path of the, 190
*Electric Railways, Traveling Contact For, 191
Electric Business, Big, 191
English Electric Light Installation, A Model, 191
Electro-Magnets, Fallacies About, by Prof. Sylvanus P. Thompson, 192
*Engine, Ideal Compound, 197
Export Trade, 197
Electric Light Station, Visit to a Great, 199
*Electro-Magnetic Radiation, by Prof. A. L. Kimball, 200
Electrolytic Administration of Medicine, by Frederick Peterson, M.D., 200
Electro-Magnets, Interesting Points About, Sylvanus P. Thompson, 204
Electric Light, Fishing with the, 206
*Engine, The Shipman, 207
Edison Men, Annual Dinner of, 208
Electrically Welded Coins, 214
Electric City, The, 217
Eureka Copper Company's Tests, 217
Electricity *vs.* Gas in Paris, 219
*"Electricity in Daily Life" (A Notable Book on Electricity), 220
Electric Club, Open House at the, 227
Electric Lighting Apparatus in Growing Demand, 236
Electrical Societies in America, 238
Edison Electric Power Plant at the Edison Machine Works, Schenectady, N. Y., The, 239
*Erickson Insulating Company, The, 240
Electric Railways, They Believe in, 240
Electric Lighting Situation in London, 243
*Edison-Lalande Batteries, Improvements in, 247
*Edison's Improved Pressure Recorder, 248
Edison Building, Strike on the, 248
Engineman Recalls an Incident of '64, A Prominent, 249
Elevated Roads, Electricity on the, 250
Electricity Not to Blame, 251
England, The Interesting Telephone Situation in, 253
Electro-Magnets, Polarized, by Prof. Sylvanus P. Thompson, 255
Electric Lighting in California, 259
Edison Improvements at Schenectady, 261
Electric Light Plants on War Vessels, Management of, 264
Electric Car Cure, The, 265
Electro-Magnets, Types of, by Sylvanus P. Thompson, 266
"Electric Railway, Historical, Statistical and Technical, Notes on the," by F. L. Pope, Before New York Electric Club, 271
European Letter, Our, 273
*"Electricity, Modern Uses of," by Dr. Moses G. Parker, Before Lowell, Mass., Y. M. C. A., 276
Edison General Electric Co., Annual Meeting and Report of the, 278
Electric Mutual Insurance Co., 281
Electrical Engineers, Requirements of, by Sylvanus P. Thompson, 284
Electric Railroads, 285
Electric Lighting, First Decennial Celebration of, 287
Electric Street Railways, Said to be Aimed at, 290
Edco Storage Battery System, The, 290
Essick Printing Telegraph, 292
*Emerson Electric Mfg. Co's Cut-Out, 292
*"Electrix" Keyless Socket, 293
Electrocution, Resentenced to, 295
Edison Stock, Vanderbilts Invest in, 299
*"Electricity in Transitu from Plenum to Vacuum," by Prof. Wm. Crocker Before Institute of Electrical Engineers, 300
Electric Light on Wheels, An, 303
Electric Mutual Insurance Co., 303
Electric Railway, A Popular (Rochester, N. Y.), 309
"Electricity, Modern Uses of," by P. H. Van Der Weyde, 312
*Electric Lighting, Mechanical Aids to, 315

F

Financial, 5, 36, 76, 100, Oct. 25, p. xiii, 124, Nov. 8, p. xiii, 148, Nov. 22, p. xiii, 174, 186, 195, 203, 215, 227, 239, 251, 270, 282, 287, 299, 311

NEW AND VALUABLE BOOKS

ON

ELECTRICITY AND ITS APPLICATIONS.

ELECTRICITY AND MAGNETISM.

Practical Electricity.

BY W. E. AYRTON.

A Laboratory and Lecture Course for first year of Students of Electrical Engineering, based on the Practical Definitions of the Electrical Units. **Numerous illustrations. Cloth. Price, $2.50.**

The A. B. C. of Electricity.

BY W. H. MEADOWCROFT.

Giving, in simple language, a general outline of the Science of Electricity. ENDORSED BY THOMAS A. EDISON. **108 pages. Illustrated. Cloth. Price, 50c.**

Elements of Magnetism and Electricity.

BY ANGELL.

With Practical Instructions for the Performance of Experiments and the Construction of Cheap Apparatus. **Numerous illustrations. Cloth. Price, 60c.**

Electricity in Theory and Practice, or the Elements of Electrical Engineering.

BY LIEUT. BRADLEY A. FISKE, U. S. N.

Fifth Edition. **Cloth. 270 pages. 180 illustrations. Price, $2.50.**

THE TELEPHONE.

The Telephone.

BY PROF. A. E. DOLBEAR.

An Account of the Phenomena of Electricity, Magnetism and Sound, as involved in its action, with directions for making a Speaking Telephone. **Cloth. Illustrated. Price, 50c.**

Practical Information for Telephonists.

BY THOS. D. LOCKWOOD.

Revised. New Edition. **192 pages. Cloth. Price, $1.00.**

The Electric Telephone.

BY PROF. GEO. B. PRESCOTT.

Second Edition. Revised and Enlarged. Contains descriptions of new Telephone Inventions and Devices, and includes full descriptions of Hughes' Induction Balance and Sonometer, Boudet's Medical Microphone, Edison's Phonograph, Taintor's Graphophone, the Metropolitan Telephone Central Station, Simultaneous Telephone Transmission on the Same Wire, Installation of Telephone Offices, Construction of Telephone Lines, Aerial and Underground, The Electric Subways in New York, Long-Distance Telephone Lines, and Statistics of the American Bell Telephone Companies. **516 illustrations. 795 pages. Price, $5.00.**

MISCELLANEOUS.

Bell Hangers' Hand-Book.

BY F. B. BADT.

For those Engaged in selling, installing or handling Electric Batteries, Electric Bells, Elevator, House or Hotel Annunciators, Burglar or Fire Alarms, Electric Gas Lighting Apparatus, Electric Heat Regulating Apparatus, etc. **97 illustrations. Cloth. Price, $1.00.**

Electric Bells and All About Them.

BY S. R. BOTTONE.

Giving full details as to the Construction of Batteries, Bells, Pushes, Detectors, etc., the Mode of Wiring, Testing, Connecting, Localizing Faults, in fact, directing careful attention to every case that can present itself to the Electric Bell Fitter. **100 illustrations. 196 pages. Cloth. Price, 50c.**

Electro-Magnets.

BY COUNT DU MONCEL.

The Determination of the Elements of their Construction. **Boards. 122 pages. Price, 50c.**

Electricity in Daily Life.

A Popular Account of the Science and Application of Electricity to every-day uses.

CONTENTS.—Electricity in the Service of Man; The Electric Motor; The Electric Railway; Lighting; The Telegraph; Cable-Laying; Electricity in Warfare—In the Household—Applied to the Human Body. **120 illustrations. Cloth. Price, $3.00**

Short Lectures to Electrical Artisans.

BY J. A. FLEMING.

A Course of Experimental Lectures delivered to a Practical Audience. **74 illustrations. Cloth. Price, $1.50.**

The Galvanometer and Its Uses.

BY C. H. HASKINS.

A Manual For Electricians and Students. Fourth Edition. Revised. **Morocco. Illustrated. Price, $1.50.**

Dictionary of Electrical Words.

BY PROF. E. J. HOUSTON.

The words, terms and phrases are invariably followed by a short, concise definition, giving the sense in which they are correctly employed. **656 pages. 397 illustrations. Cloth. Price, $2.50.**

Induction Coils.—How Made and How Used.

Boards. Price, 50c.

Electrical Engineers' Pocket Book.

BY H. R. KEMP.

Modern Rules, Formulæ, Tables and Data. **Leather. Price, $1.75.**

Electrical Measurement and The Galvanometer.

BY THOMAS D. LOCKWOOD.

Explaining its Construction and Use. **Cloth. Illustrated. Price, $1.50.**

Lectures on The Electro-Magnet.

BY SILVANUS P. THOMPSON.

Cloth. Price, $1.00.

Electric Light Fitting.

BY J. W. URQUHART.

A Hand-Book for Working Electrical Engineers, Embodying Practical Notes on Installation Management. **Numerous illustrations. Cloth. Price, $2.00**

POWER.

Electric Motors.

BY S. R. BOTTONE.

A Hand-Book for Amateurs and Practical Men. **Illustrated. Cloth. 132 pages. Price, $1.20.**

The Electric Motor and Its Applications.

BY T. C. MARTIN AND J. WETZLER.

New and Greatly Enlarged Edition. This timely work is the first American book on Electric Motors, and deals exclusively and fully with the modern Electric Motor in all its various practical applications. **300 pages. 275 illustrations. Price, $3.00.**

The Electric Railway of To-day.

BY H. B. PRINDLE.

Fully illustrated. Price, 50c.

The Electric Railway.

BY FRED H. WHIPPLE.

259 pages. 117 illustrations. Price, $1.00.

ELECTRIC LIGHTING.

Elements of Electric Lighting.

BY PHILLIP ATKINSON.

Including Electric Generation, Measurement, Storage and Distribution. Sixth Edition. **104 illustrations, 260 pages. Cloth. Price, $1.50.**

The most complete and comprehensive treatise on Electric Lighting ever published; giving the latest practical facts with the least amount of technicality and mathematical formulæ; with full treatment of the Dynamo, the Storage Battery and the principles of Direct and Alternate Current Lighting.

Dynamo Tenders' Hand-Book.

BY F. B. BADT.

General rules for the care and operation of electric light installations in simple and plain language. Invaluable to dynamo tenders, linemen and others who wish to familiarize themselves with the principles underlying the care and operation of electric light installations. SEND FOR NEW EDITION WITH MOONLIGHT SCHEDULE FOR 1891. **Illustrated. Cloth. Price, $1.00.**

Incandescent Wiring Hand-Book.

BY F. B. BADT.

Containing full instructions for Incandescent Wiring, and complete information concerning Methods of Running Wires, Location of Safety Devices and Switches, Splices, Insulation and Testing for Faults, Wire Gauges, General Electrical Data, Calculating Size of Wires, Wiring of Fixtures, Elevators, Buildings, Isolated and Central Station Plants. New Edition. **Illustrated. Cloth. Price, $1.00.**

The Dynamo.—How Made and How Used.

BY S. R. BOTTONE.

A Book for Amateurs. Sixth Edition. **39 illustrations. 98 pages. Price, $1.00.**

How to Make a Dynamo.

BY ALFRED CROFTS.

A Practical Book for Amateurs. Containing Numerous Illustrations and Detailed Instructions for constructing a small Dynamo. Third Edition. Revised and Enlarged. **Cloth. 104 pages. Price, 80c.**

Incandescent Wiring Table

And other information for the use of Electric Light Wire Men. **Cloth. Price, 75c.**

Incandescent Electric Lighting.

A Practical Description of the Edison System, to which is added a Description of the Edison Electrolytic Meter, and a paper on the Maximum Efficiency of Incandescent Lamps. **Boards. Price, 50c.**

Alternate Current Machinery.

BY GISBERT KAPP.

Illustrated. Boards. Price, 50c.

Practical Electrical Engineering.

A complete treatise on the construction and management of Electrical Apparatus as used in Electric Lighting and the Electric Transmission of Power. By men eminent in their respective departments. To be completed in 18 monthly parts. Sold only by subscription. **With many hundreds of illustrations. Each part, 75c.**

Electric Light.—Its Production and Use.

BY J. W. URQUHART.

Fourth Edition. Rewritten with large additions. **Numerous illustrations. Cloth. Price, $3.00.**

Practical Dynamo Building for Amateurs.

BY EDWARD WALKER.

How to Wind for any Output. **Numerous illustrations. Boards. Price, 50c.**

Copies of any of the above books, or any electrical work published, will be mailed to any address, postage prepaid, on receipt of price.
Remit by Express or Post Office Money Order, Postal Note, Draft or Registered Letter. Address

ELECTRICAL REVIEW PUBLISHING COMPANY,

P. O. Box 3329. 13 PARK ROW, NEW YORK.
